

Senior Python Developer

Role: Senior Python Developer

We are looking for a Senior Python Developer with 5+ years of experience to join our backend engineering team. In this role, you will design and develop robust APIs, optimize database queries, and containerize applications.

Requirements:

- Strong proficiency in Python and Django or FastAPI.
- Solid database experience with PostgreSQL or MySQL.
- Experience with Docker and containerization.
- Proficiency with Git and CI/CD pipelines.
- Excellent communication and problem solving skills.
