

React Frontend Developer

Role: React Frontend Developer

We are hiring a Frontend Engineer with experience building responsive web apps using React and Next.js. You will collaborate closely with UI/UX designers to translate Figma visual assets into reusable react components.

Requirements:

- 3+ years experience with JavaScript and TypeScript.
- Strong hands-on coding skills in React and state management (Redux/Context).
- Solid styling skills using HTML5, CSS3, and modern framework systems.
- Experience with Git/GitHub workflows.
